

MEMBER SPOTLIGHT

February 2016

California Fashion Association (CFA) is a non-profit organization providing information for business expansion and growth to the apparel and textile industry of California.

The **California Market Center** in the LA Fashion District will be enlarging their exhibition space and consolidating showrooms onto fewer floors. All showrooms and offices on the second floor will be vacated over the next few months as the area is converted into a vast exhibition hall.

The major renovation will address the need for event space created by increased requests and will provide more convenient trade show and event space for the building.
