BUREAU VERITAS Announces New IT Platform for Environmental Efforts

BUREAU VERITAS has increased its environmental efforts in the textile industry by launching a new IT platform, Environmental Emission Evaluator (BVE3), to enhance its Chemical Discharge Monitoring business. BVE3 supports supply chain partners by assisting to reduce harmful environmental practices, working with supply chain controls, including factory audits, chemical screening and testing to ensure priority chemicals are regulated properly.

The 'Technical Lead' for Chemical Discharge Monitoring at **Bureau Veritas** stated, "BVE3 enables retailers and brands to identify their factories chemical management performance and where to utilize the sustainability resources."

CALIFORNIA LABEL PRODUCTS INTRODUCES NEW RFID TAG

CALIFORNIA LABEL PRODUCTS has introduced woven RFID (Radio Frequency Identification) labels from TexTrace into its product line. These sewn-in labels can withstand production processes such as stone washing, bleaching and enzyme finishing, and after-sale processing such as home washing and dry cleaning.

The added value benefits of a built-in RFID are an all-in-one solution for inventory tracking, product branding, brand and theft protection, customer experience and omni-channel retailing.
