Alvanon Takes 3D Design to a New Digital Body Platform

Alvanon is launching the [Alvanon Body Platform \(ABP\)](#)

- A cloud database of over 6,000 *virtual* bodies designed for hundreds of fashion and retail brands globally.
- These bodies will be easily accessible and encrypted, facilitating a secure and seamless process for vendors to access 3D fit standards and size sets.
- The ABP Platform is a digital, 3D solution that cuts costs and increases speed-to-market. It *virtually* replicates the costly process of physical fitting.
