Personal Protective Equipment for Health Professionals Fighting COVID-19

A surge in the number of COVID-19 cases in the United States is straining the supply of personal protective equipment (PPE) for hospitals across the country. The purpose of this site is to help connect hospitals and healthcare professionals with their local communities. Let's do our part to provide our healthcare professionals the equipment they need to fight COVID-19.

A [nationwide directory of hospitals](#), including what each hospital needs and how to coordinate delivery to them. You can sort it by state if you want to see specific needs for California hospitals. It also includes contact information for certain hospitals.
