### ***California Fashion Association: Statement of Position:***

*California's branded manufacturers and 'private label' suppliers who take pride in their labels and professional reputation seek to work only with apparel factories where workers are treated fairly in accordance with current labor law.*

*California's Registration requirement (AB633) defines the difference between those companies working within the legal requirements of social responsibility, and the 'others'. Joint liability between a contracting factory and a brand holder for wage/hour and OSHA conditions is clearly delineated.*

*Apparel manufacturing is the 'ladder-up' for those with the desire to use their 'eye-hand coordination' skills. With on-the-job experience and personal growth, any person's dedication to his or her future is the ticket to upward mobility.*
